ABOUT ME

Dedicated and passionate with hands-on experience in Frontend Development, later transitioning to Fullstack Development. With my problem-solving and interpersonal skills, I am committed to achieving success, and always eager to learn more on modern technologies.

EDUCATION

2021 - 2025 (Graduate)
Cebu Eastern College

Bachelor of Science in Information Technology
Leon Kilat St, Cebu City, Philippines

EXPERIENCE

July 2024-February 2025
Pixel8 Web Solutions & Consultancy

Front-End Developer - Intern

- Set up and configured Git and GitLab repositories, ensuring version control and collaborative development practices.
- Built interactive user interfaces using Vue.js and the Quasar Framework, focusing on component reusability and responsiveness.
- Integrated Axios for REST API communication to handle real-time data fetching and form submissions.
- Developed actual project UI components using mock data from JSON server, simulating real-world scenarios.
- Conducted end-to-end testing of project interfaces using Cypress, ensuring functionality and usability.
- Collaborated with team members via GitLab using merge requests, issue tracking, and CI pipelines for project integration.

SKILLS
